

FORMOST FUJI

FORMOST FUJI FW3410 SLUG WRAPPER

FUJI-FORMOST MODEL FW-3410
HORIZONTAL WRAPPER

GENTLE PRODUCT HANDLING

QUICK, EASY SETUPS

EXCLUSIVE HEAT PIPE END SEALERS

VARIABLE SPEED CONTROL

FAST, FLEXIBLE AND RELIABLE

SLUG PACK WRAPPER

The Formost Fuji Model FW-3410 Horizontal Mechanical Slug Wrapper is a proven performer in a variety of applications from crackers to gem donuts.

Formost Fuji's exclusive heat pipe end sealers increase speed capabilities, improve seal integrity and save energy. The electronic control panel includes a digital readout for cut-off length, operating speed and counter. The standard photoelectric print registration controller insures correctly positioned, perfect package printing.

Application: Slug Pack Wrapper

The FW-3410 Wrapper can be configured for hand-fed operation or equipped with an automatic indexing system.

Special side pins capture the product to hold it in position as it is transferred through the wrapper to the end sealers.

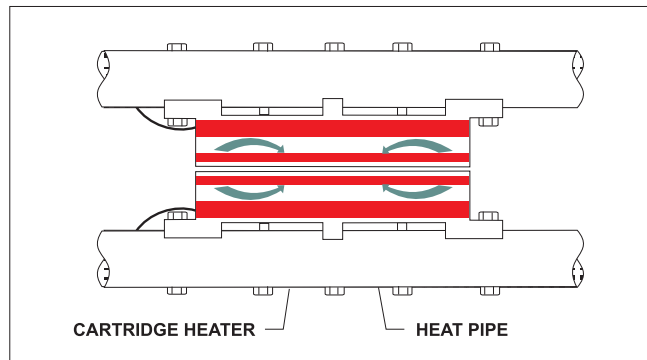

Exclusive Heat Pipe End Sealers

Heat pipes utilize the principle of heat vaporization to transfer heat quickly. They have 10 times the conductivity of solid copper. Rapid transfer of heat from where it is stored in the body of the sealer jaws to sealing area, where it is consumed, results in uniform sealing temperature for consistent sealing; low operating temperature of sealers, saving energy; and higher speed wrappings with fewer rewrips.

Heat Pipes

Optional Features

Automation, Integration

Automated feed systems and full line integration capabilities.

Preheaters

Web and fin seal preheaters help maintain production speeds utilizing heavy or difficult to seal films, or compensate for hostile environments.

Automatic Film Splicer

Designed for registered printed film.

Card Sheeter

Adds product stability and package strength.

SPECIFICATIONS

Machine Model		FW3410
Operating Speed*		10-450 packs/min
AC Infeed Drive Motor		300W
Film Width		16.75" Max.
Film Cutoff Length*		1.5" - 17.5"
Dimensions	Product Width	7" Max.
	Product Height	4" Max.
Machine Weight		1875 lbs.

Specifications may vary according to application, and the right is reserved to make changes without notice.
